

Globes Sizing Form

Instructions for Specifying Product:

1. Remove existing lens from post-top or other fixture type (this is very important, because globes often have unique necks). If the part is too difficult to draw, call us and we will help you order right away.
2. Draw a basic picture of the light cover in the box below.
3. Measure the cover to the nearest 1/16" of an inch and specify the material type.
4. Fax this form to your nearest Malcolite regional sales office.

Part Drawing:

Please include the following measurements on your drawing:

- Diameter
- Width and Length of Opening
- Height of Neck (if applicable)
- Show notches or lock type (if applicable)

Specifications:

Material: Opal Acrylic
 Opal Polycarbonate (stronger but will yellow)
 Other: _____

Quantity: _____

Location in Building: _____
